Enjoy a full episode of Blaze and the Monster Machines! Blaze and AJ are invited to the Deep Sea Grand Prix. Blaze transforms into a submarine for the underwater race. During an earthquake, the rock on one side of the fault suddenly slips with respect to the other. The fault surface can be horizontal or vertical or some arbitrary angle in between. Earth scientists use the angle of the fault with respect to the surface (known as the dip) and the direction of slip along the fault to classify faults. A screengrab from a video published on social media shows the moment the rock formation fell onto boats at Furnas Lake in the state of Minas Gerais, Brazil on Jan. 8, 2022.
